Subject: RE: Horse Canyon Mine, Detailed Design Changes, Task ID #2969

We plan on releasing the contract for the earthwork portion in the near future. The earthwork contract is scheduled to start July 16th, the day after the raptor closure.

We need to discuss in detail what can and cannot be done from July 16th until the approval of the submittal.

Is there anything UEI can do to speed up the review process?

Please let me know.

Thanks

Jay

The Division received your application for the above-noted permit change on May 2, 2008. Pursuant to R645-303-221, the Division completed the requisite 15-day Initial Review (IR) and accepts this application for a technical review. The Division anticipates this review will be completed by July 1, 2008.

If you have any questions, please call Wayne Western at (801) 538-5263 or Jim Smith at (801) 538-5262..
